DETAILED ACTION

1. This action is responsive to the Appeal Brief filed on March 6, 2008. Claims 15-20 are cancelled. Claims 1-14 are pending. Claims 1-20 represent Dynamic mapping of wireless network devices.

Allowable Subject Matter

2. Claims 1-4 and 6-14 are allowed.

3. Pursuant to 37 C.F.R. 1.109 and MPEP 1302.14, the following is an Examiner's statement of reasons for allowance:

The prior arts in record fail to teach "how the locations of device representations can be adapted for updating in response to changes in mapping information contained on a compute-usable medium of one of the network devices without the need for manual intervention, wherein the representation, wherein the representations comprises visual, audible and/or tactile indicators, and wherein the representations provide an indication of at least a relative distance between their respective network device and the reference point as recited in independent claim 1". After an update search of class, subclass and cross-reference, Examiner came to conclusion that the case is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
